

Welcome to our June 2026 newsletter

Hi there,

Welcome to our June newsletter.

As always, the year is racing by. In April, I was fortunate to spend time with family in Miami before travelling by train through Boston and New York. While I was away, the team back home kept everything running smoothly (or so they tell me!), and as always, I am incredibly grateful for their dedication and support.

I'm also pleased to share some exciting news—our team has grown. We recently welcomed Daryl Frith as our Executive Collections Manager. Daryl brings more than 35 years of experience in the debt collection industry and will be a valuable resource and mentor for both our team and our clients. His extensive expertise in debt recovery and legal processes enables him to provide practical, relevant advice and guidance across a range of collection matters.

At Business Credit Solutions, we pride ourselves on having an experienced and dedicated team, and we look forward to Daryl being part of our journey for many years to come.

We understand that many businesses continue to face challenging conditions, so we are pleased to share a timely article from Melissa Roberts of Solpoint Bayside, offering practical insights and tips to help you prepare for the end of the financial year.

Kind regards,
Jeanine and the team

EOFY Bookkeeping Checklist

Why this time of year matters:

End of financial year isn't just a tax deadline - it is the one point in the calendar where your books need to be accurate, complete, and defensible. Whether you are preparing for your accountant, lodging your own return, or getting ready for a BAS review, what you do (or don't do) in the lead-up to 30 June has a direct impact on your tax position, your compliance obligations, and the quality of your financial picture for the year ahead.

You can download a Checklist [here](#).

With thanks to Melissa Roberts - CPA & Founder of Solpoint Bayside Advisory

[Solpoint Bayside](#)

Late payments at highest rate in six years as cash-flow pressure spreads through Australian business.

Payment arrears at the highest level since January 2020 as interest rates, energy costs and tax debt heap pressure on business cash flow.
